

An aerial photograph of a waterfall cascading through a dense, green forest. The water is white and frothy as it falls. In the middle of the waterfall, a small, realistic globe of the Earth is superimposed, appearing as if it is part of the water's path. The globe shows the continents and oceans in detail. The surrounding forest is thick and vibrant green.

COLLECT • MANAGE • DISPOSE

**A Comprehensive Program
for Medical Waste**

Collect • Manage • Dispose

Red Bag Solutions and BD bring you a solution for regulated medical waste disposal that includes service and on-site destruction

Proper destruction of regulated medical waste can be a complex process. Red Bag Solutions and BD are working together to assist you in this complex world of waste collection generated at your healthcare facility, including:

- Sharps waste
- Red Bag waste
- HIPAA waste

Our combined assets help healthcare facilities like yours manage regulated medical waste and bring a sustainable waste management solution that is:

Environmentally friendly

Exchange, retrieval and processing services for regulated medical waste that can be reduced by as much as 90% without the use of toxic or hazardous chemicals.

CDC/NIOSH compliant

The CDC/NIOSH-compliant collectors are available in a variety of sizes and styles for all medical applications.

Economically sound

Regulated medical waste is transformed into less-costly municipal waste.

Different than traditional methods

Regulated medical waste is rendered sterile and unrecognizable, simplifying your waste segregation.

At your service

Red Bag Solutions provides facility-wide 24-hour on-site management of regulated medical waste retrieval as required by the customer, and is Department of Transportation (D.O.T.) licensed.
